BEVERAGE STYLE

This in-house brewery features handmade craft beer brewed in a three-barrel brewhouse. Center Square's brewers strive to incorporate fresh and local ingredients whenever possible to create one of a kind beer with a local flair. The brewery features four rotating drafts and a rotating seasonal beer. From lagers to Saisons, IPAs and Stouts, beer lovers will discover a variety of interesting and refreshing flavors. A popular drink found at Center Square is the German Chocolate Stout – a big malty oatmeal stout with added pecans and coconut. Or try their nontraditional IPA, a citrusy brew made with hops from Barvaria and New Zealand.

FLAVORFUL FACT

Center Square's brewer, Sarah Moran, is the only female brewer in the area. She seems to have an innate ability to match up locally-sourced ingredients with the seasonal menus that The Altland House serves, creating menus and brews that work with the time of year and ingredients available.
