Ben Little

BEVERAGE STYLE

Fourscore Beer Co. focuses on innovation with an ever-vigilant eye on the past. They use the highest quality ingredients, sourcing them from all over the globe, including right from Adams County. Whether it's local cherries used in a tart, oak fermented beer, exotic spices from around the world in a chewy imperial stout, or hops from the Pacific Northwest, they always find the perfect ingredient to match with the flavor profiles and experiences they are trying to create. They produce a wide variety of beers from IPAs to Pilsner-style beer to ales. In addition to their standard lineup, they brew a selection of seasonal beers based on what's available locally. Fourscore has a serious focus on hops, using them to get flavors that burst in your mouth and aromas that jump out of the glass. Their beers are about balance and will shy away for the more bitter side of beers.

LOCATION EXPERIENCE

Fourscore Beer Co. is a hometown brewpub, focused on handcrafted beers with food to complement their draft lineup. They focus on having a beer for everyone on their 14 taps. Menu items include appetizers, salads and sandwiches. Conveniently located on South Washington Street, there are many shops, restaurants, accommodations, attractions and other stops along the Adams County Pour Tour within walking distance for a full day itinerary in Gettysburg.

FLAVORFUL FACT

Fourscore Beer Co. uses many freshly picked Adams County fruits in their natural form in their brews, allowing them to harvest a beer unique to Adams County. Their pride in their roots even extends to the tanks they use to brew their beer - fabricated in the USA from USA stainless steel.
