BEVERAGE MAKER

John Halbrendt

BEVERAGE STYLE

Halbrendt Vineyard and Winery firmly believes that fine wines are made in the vineyard; therefore, their winemaking philosophy begins with careful attention to the grapes. To preserve the integrity of the fruit and wine, they planted their vines with minimum tillage, tend their vines in a sustainable way, hand pick ripe fruit and sort it by hand so only the best goes into the crusher. Halbrendt practices minimal handling in the winery and chooses not to use fining agents to speed up the winemaking process, rather they let the wine settle in its own time. Halbrendt offers varietal wines and blends made from Cabernet Franc, Chambourcin, Cayuga White, Traminette, Vidal Blanc, Chardonnay, Niagara and local fruit. Their Vidal Blanc won a bronze medal at the Pennsylvania Farm Show, the only competition they've ever entered.

LOCATION EXPERIENCE

This small family owned winery is located seven miles west of Gettysburg in the scenic foothills of the Appalachian Mountains. Their wines are often enjoyed on a charming patio just outside of the tasting room. However, if you venture just a little bit further, you'll find picnic tables alongside rows of grapes in their vineyards where you can unwind and enjoy the serenity of rural Adams County. Weather permitting, the vineyard view area is used for special events, paint classes, yoga and small weddings.

FLAVORFUL FACT

Co-owner and wife to winemaker John Halbrendt, Noemi Halbrendt, developed a sustainable vineyard pest management program that resulted in high-quality fruit that has been sold to local wineries and made into fine wines. Before owning Halbrendt Vineyard & Winery, this husband and wife team were plant pathologists.
